4. Talked about events

Notes meeting:

Even een update gegeven aan Coen & Leon over de Fontys api key, moet nog even om de tafel wat het idee precies is. Begin eerst maar eens met tekst, stem kun je later dan nog toevoegen, misschien zelfs eerst op engels focussen.

Coen zou het wel leuk vinden als er toch iets van een herkenning in zou zitten, een soort theorie of mind, dus misschien een pasje scannen dat ie je daaraan herkent ipv een camera op te hangen. Misschien iets van een codewoord wat je zou kunnen afspreken, dat ze je herkennen. Of misschien ervaringen herkennen. Ai & data event 21 november, hoe kunnen we dit gaan vormgeven. Denk ook na over wat de omgeving kan zijn, en hoe dit gaat werken.

5. Participants

- Coen Crombach
- Leon van Bronckhorst
- Group members

6. Established agreements

3. Agenda

- Show AI & Data event planning (Test)
- Testresultaten bespreken (Survey)
- Mini demo van Chatterbox & chatbot
- Print event poster

4. Talked about events

Notes meeting:

Je zou het kunnen vergelijken met Frits die Engels praat. En ik denk ook niet dat mensen de stem van Frits überhaupt zouden herkennen.

Misschien dat we nog iets met het Philips museum kunnen doen. Was een Fontys partner, hiermee kun je met Danny contact opnemen. Mochten we iets van tokens nodig hebben voor tools, overleg dit even met Leon, Fontys heeft vaak wel toegang tot dit.

Coen heeft de Git link nog benoemd, maak maar een mirror van de repo en een pull request om de changes te updaten. Kunnen we hier de code alvast in zetten, andere gemaakte documenten zouden hierbij van pas komen.

4. Talked about events

Notes meeting:

op basis van target audience instructies geven aan IIm (zichzelf laten zijn, op basis van tegen wie hij praat)

Coen voorkeur: leuk als er iets concreets staat op het einde, zoals Frits. Frits doorgaan is een prima keuze. eerder over meerdere entiteiten gehad. Zoals verschillende bankjes. Statue recognition (Frits herkend jou als persoon (memory))

Onderzoeken naar recognition, text, vision, codewoord.
