

TALK TO FRITS!

"Keeping the Eindhoven heritage alive."

Frits Philips shaped Eindhoven's spirit of human-centered innovation.

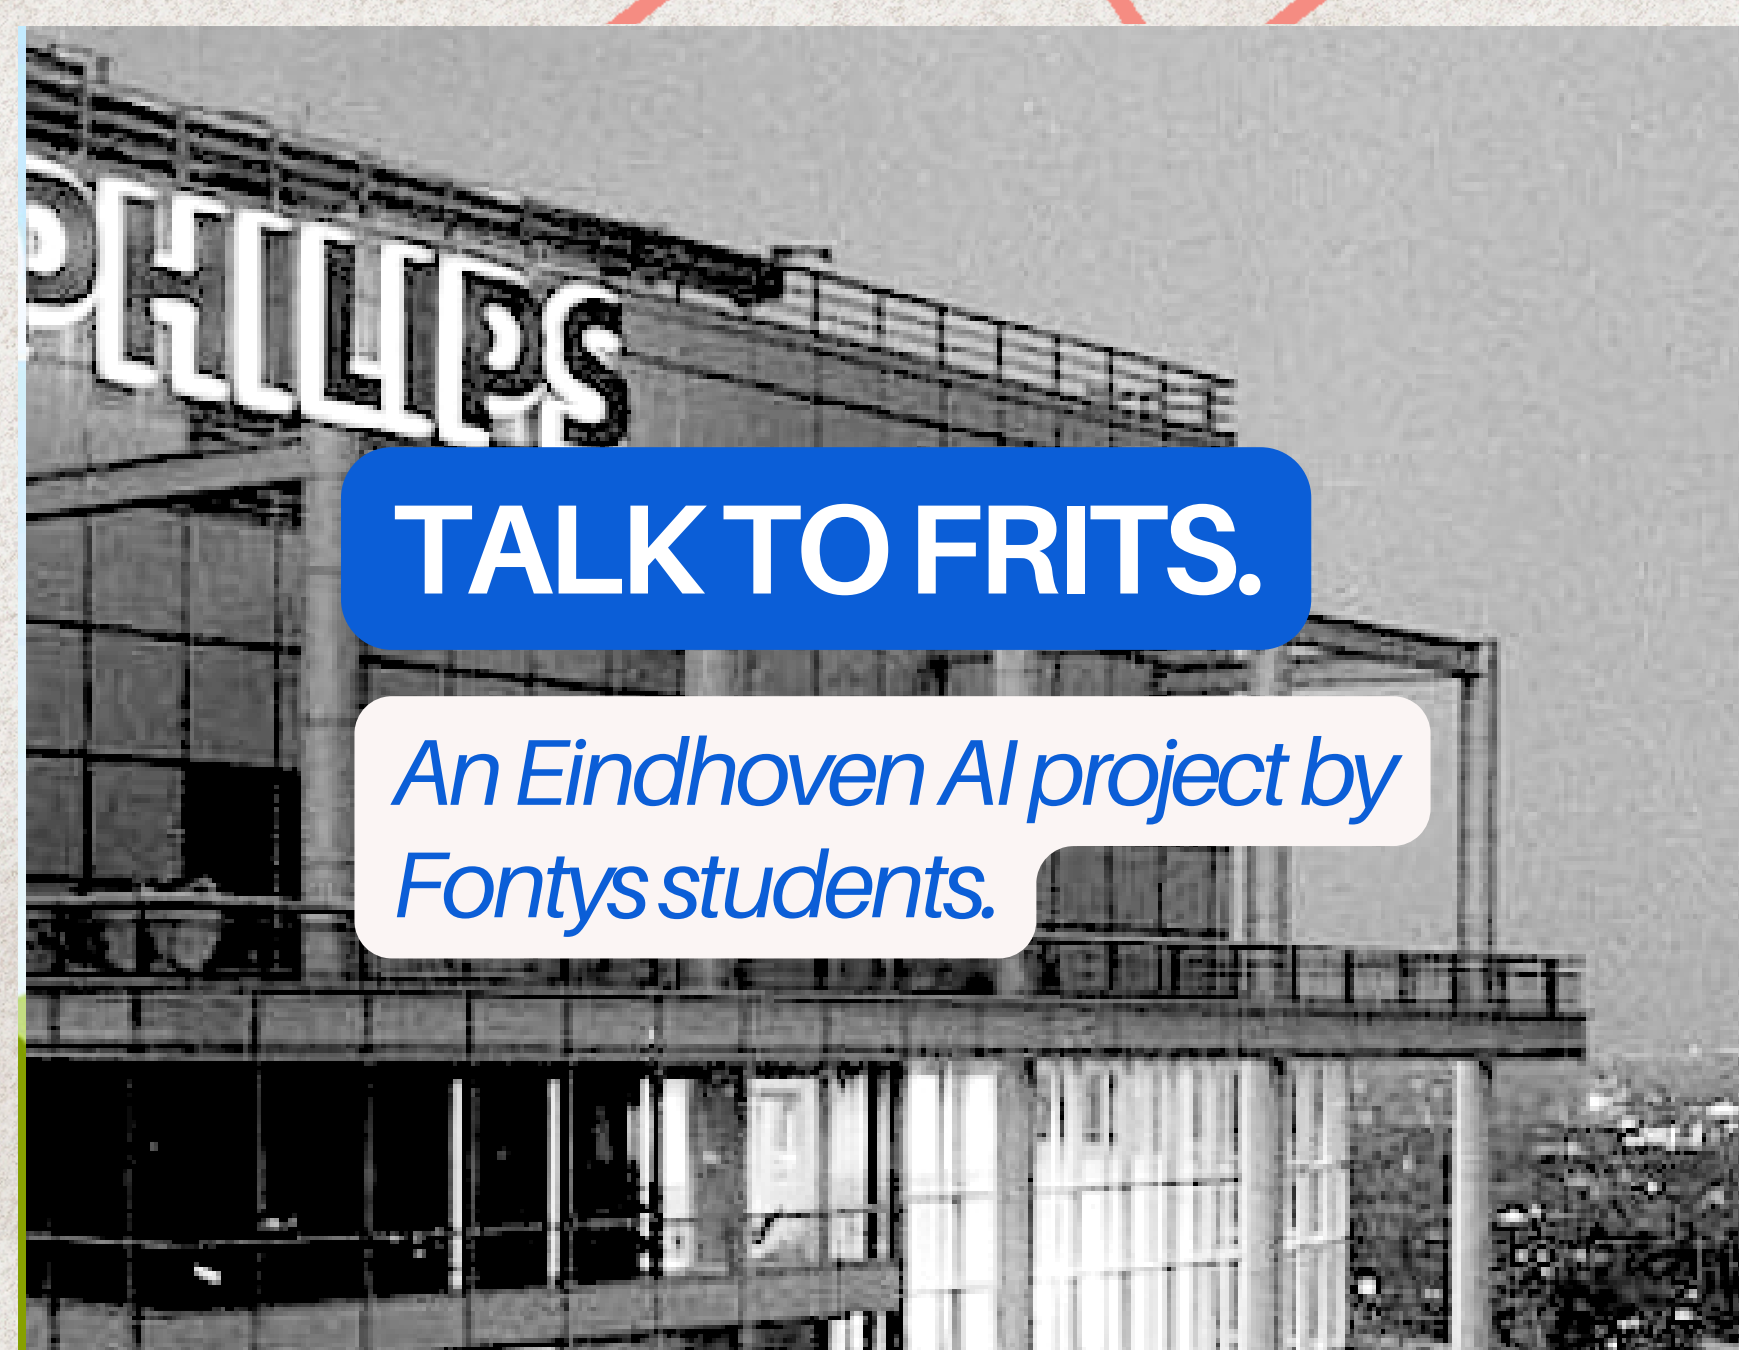

Today, through AI, he returns not as a memory, but as a **storyteller** with a **voice** that **listens, learns, and inspires**.

OUR GOAL

To show how technology can **preserve** human **values, connect generations, and keep the story** of Eindhoven **alive**.

HOW IT WORKS:

- **Tone of Voice** trained to reflect Frits' warmth, humor, and vision.
- **Local Data** connects his stories to Eindhoven's history and events.
- **Machine Learning** helps him grow through real interactions.
